PAIGE

The Standard of Value and Quality

WE have never attempted to build racing cars. We have always contended that one mile a minute is more speed than any man can use with safety on the open road. So that is the maximum pace we guarantee to our owners.

Nevertheless, Paige has been the winner in many races. In the Phoenix-Los Angeles race, for instance, it was a Paige that flashed across the line first. It had traveled 706 miles across the desert beating a field of twenty cars—most of them acknowledged "racers" driven by American speed kings.

The Paige won that gruelling contest—not because it was the fastest car—but because it was the most reliable car.

It went through without a single stop—without so much as opening the hood during the entire 706 miles. That is why it won. That is why Paige cars will always win if the race is only long enough and rough enough to be a real test of endurance.

That, also, is one excellent reason why your next car should be a New Series Fairfield "Six-46."
